Desa Paseban, Kab.Tebo, Jambi

ABOUT ME

I am Farchan Akbar, I graduated from Dinamika Bangsa University. I have an interest in technology, especially in the software development industry, I have learned various programming languages ranging from JavaScript with the React framework Python with Machine Learning, and Dart with Flutter. After I learned all that, I finally decided to focus on application development using Flutter. I have been studying Flutter for approximately 1 year and have created several projects using State Management Bloc and GetX. I can learn quickly and I am trying to be able to do it. contribute to the company if I am accepted

HARD SKILLS

Dart Programming Language
Framework Flutter
State Management GetX
