

# HAFIZ IQBAL SYAHRUNIZAR

( Backend Engineer )

Tulungagung, Indonesia | [havisiqbalsyah@gmail.com](mailto:havisiqbalsyah@gmail.com) | 087708466279 | [Linkedin](#) | [Github](#)

## SUMMARY

I'm a forward-thinking Software Engineer with over three years of experience specializing in the development and maintenance of scalable software applications. My expertise lies in leveraging Golang to build resilient, high-performance solutions, underscored by a proven track record in optimizing microservices architecture for enhanced efficiency. Known for my collaborative spirit and commitment to innovation, I continually seek to embrace the latest technologies, ensuring the delivery of exceptional outcomes. I am eager to apply my technical acumen and passion for software engineering to contribute meaningfully to your team and help drive your company's success forward.

## TECHNICAL SKILLS

- **Languages:** Golang, PHP.
- **Technologies:** Echo, Gin, Laravel, MySQL, Postgres, S3 Bucket, AWS EC2, Cloudflare, Docker, Docker Compose, Github, Gorm, REST API, Redis.
- **Other:** Implementing CI/CD, Microservices, Agile Scrum.

## PROJECTS

- **[Whatsblast \(Message Whatsapp Gateway\):](#)**  
Whatsblast is a service that allows you to send bulks message for keeps up new leads for buisness. It is a web application that uses Golang, Fiber, and MySQL.
- **[Histore.id \(Digital Product Store\):](#)**  
Histore is a digital product store that allows you to sell digital products online, in example (Top Up Games, Buy Internet and Payment Prepaid Needs) It is a web application that uses Golang, Fiber, and MySQL.

## WORK EXPERIENCE

### Bluewave Labs

Jan 2024 - April 2024

Founder, Tulungagung

- **I'm in charge of Whatsblast**, focusing on its development and upkeep. My role involves integrating it with WhatsApp and shaping our business model. This means making sure Whatsblast works seamlessly with WhatsApp for better communication and managing how our business runs to serve our users well. I'm all about improving Whatsblast, keeping it up-to-date with WhatsApp's changes, and ensuring it meets our users' needs in running their businesses effectively
- **I lead the tech side of Histore.id**, focusing on making it better and more user-friendly. My job includes adding new products by connecting with more suppliers and setting up safe and easy payment options. This work helps our users find what they need quickly and buy it safely, making Histore.id a go-to online marketplace. I'm all about improving our site, keeping it up-to-date, and ensuring our users have a great experience

### XL Axiata Tbk

Des 2022 - Des 2023

Backend Developer, Jakarta

I'm the driving force behind AXISnet's loyalty program, focusing on creating and updating key features like the Alifetime Program and Mystery Box. My goal is to make sure our users have the best experience possible. This involves designing

rewards and surprises that make our users feel valued and keep them engaged with our services. I'm constantly working on making our loyalty program more enjoyable and beneficial, ensuring it not only rewards users but also enhances their overall experience with AXISnet.

## Halte Creative

2020 - March 2022

Fullstack Developer East Java, Tulungagung

- I am creating an application called Point Of Sales Mobile for internal pharmacy stores.
- Slicing from UI design to the mobile application and integrating the system to the backend with REST API build with React Native.
