Panorama Jatinangor, Sumedang Regency, West Java Province, Indonesia

Experienced in both project management (5 years) and software developer (2 years), I've successfully handled various clients and projects, especially in telecommunications industries, Supply Chain Management, and Financial. Apart from managing projects, I'm skilled in technical areas.

Work Experiences

Inovasky - Denpasar, Bali

Jun 2021 - Present

Founder and Technical Project Manager

Dynamic and results-oriented professional with a proven track record in leading a diverse team within a software house environment. Offering expertise in overseeing end-to-end project lifecycle, from ideation to deployment, and maintaining client satisfaction. Skilled in strategic management, financial administration, and fostering a collaborative work culture. Committed to delivering innovative solutions and exceeding client expectations.

- Successfully garnered trust from a diverse array of clients, including esteemed organizations such as PT AvianaSinar Abadi Tbk., PT Aviana Sumber Anugerah, PT Sanghiang Perkasa Kalbe Nutritionals, PT Ekosistem Pasar Digital, PT Makto Agro Santosa, PT Layanan Kolaborasi Global.
- Instrumental in steering the growth of Inovasky, transforming it into a multi-million Rupiah revenue-generating software house. Accomplished the feat of providing sustainable employment to 8 team members, equipped with necessary resources including laptops and other essential provisions, while also ensuring competitive compensation packages. Furthermore, contributed significantly to the company's profitability, securing profits in the range of hundreds of million Rupiah.
- These achievements underscore my ability to not only deliver exceptional results but also to foster an environment conducive to sustainable growth and client satisfaction within the software industry.
- Successfully initiated and managed an internship program catering to students from the Bandung Institute of Technology (ITB). This program not only facilitated the acquisition of valuable practical experience for aspiring IT professionals but also contributed to the enrichment of our team's skillset through fresh perspectives and innovative ideas. The seamless execution of this program further reflects our commitment to nurturing talent and fostering collaboration within the industry.

Whatspi

PT Qodrbbee Berinovasi - Yogyakarta

Nov 2019 - Mar 2021

Project Manager

Transitioned from a Backend Developer role to Product Manager at PT Qodrbbee, where I played a pivotal role in the company's growth journey. Spearheaded the development and launch of Woowa, a WordPress WooCommerce plugin facilitating integration with WhatsApp,

contributing to the company's revenue growth to hundreds of millions. Managed various projects ranging from private sector to governmental initiatives, overseeing end-to-end project execution as the Project Manager.

- Boosted company revenue from its inception to achieving monthly turnovers in the hundreds of millions.
- Progressed from a technical role to a leadership position, demonstrating adaptability and strong project management skills.
- Successfully led the development and launch of Woowa, a highly successful plugin that streamlined communication between businesses and customers via WhatsApp.
- Implemented effective project management methodologies to ensure timely delivery and client satisfaction, resulting in repeat business and positive referrals.
- Led cross-functional teams, fostering collaboration and synergy to achieve project objectives efficiently.

PT Qodrbée Berinovasi - Yogyakarta

Jun 2018 - Nov 2019

Fullstack Developer

Garut Regency Regional Government - Garut

Jun 2019 - Jan 2020

Fullstack Developer

Dynamic and driven Software Engineer with a proven track record in developing web-based information systems for rural communities. Proficient in project development, reporting, and conducting training sessions for village residents. Seeking to leverage technical expertise and community engagement skills to contribute effectively to impactful projects.

- Led the development of a comprehensive web-based information system for rural communities in Garut.
- Collaborated with stakeholders to gather requirements and design system architecture tailored to the specific needs of the target audience.
- Utilized technologies such as HTML, CSS, JavaScript, and PHP to build user-friendly interfaces and ensure seamless functionality.
- Conducted regular training sessions for village residents to enhance their digital literacy and empower them to utilize the system effectively.
- Produced detailed progress reports and documentation to track project milestones and ensure transparency in project management.

Villa Matamori Bandung - Bandung

Mar 2018 - May 2018

Junior Programmer

Experienced Full-Stack Developer with a proven track record in developing booking systems. Successfully developed Villa Matamori booking system in Bandung using Laravel. Seeking opportunities to leverage technical skills and creativity in developing innovative solutions for hospitality industry projects.

- Successfully developed Villa Matamori booking system in Bandung using Laravel framework. Collaborated with stakeholders to gather requirements and design system architecture tailored to the needs of the hospitality industry. Implemented booking functionality, including user authentication, villa availability management, and payment processing, using Laravel's MVC structure. Designed and developed a user-friendly interface for guests to browse available villas, view amenities, and make reservations. Integrated third-party APIs for payment gateways and location services to enhance the functionality of the booking system.
