

# Sien Khumaen D.

## Frontend Developer

### EXPERIENCE

#### Frontend Developer

##### Freelance Projects

Jan 2023 - Present, Remote work - Freelance

- **Konekelas:** Integrate REST API's, Transform Figma designs into code, Enhance basic web accessibility, Integrate third-party libraries such as HotJar for user behaviour analytics and Mayar for payment gateway
- **Taxacademy ID:** Taxacademy is basically the copy of konekelas, and we just modified some parts like courses type, payment gateway using Midtrans instead of Mayar, UI Designs, and delete some features that not needed in Taxacademy.
- **Markazpalsa (admin):** Working with 5 frontend developers has drastically helped me improve my skills in reading and understanding other people's code.
- **Zivana:** An e-commerce project.

#### Fullstack Developer

##### Personal Projects

Dev 2023 - Present, Personal project
