SUMMARY

I recently completed my software engineering degree and have a keen interest in exploring various areas like project management, graphic designer, social media designer and UI/UX designer. My academic background has provided me with robust analytical and problem-solving abilities. Beyond my studies, I also enjoy graphic design as a hobby, and I strive to integrate my educational pursuits with my creative interests. With prior experience collaborating on team projects and my strong design skills, coupled with my determination to succeed, I am confident that I can bring significant value to any organization.

EDUCATION

TELKOM UNIVERSITY (2019 - 2023)
Bachelor of Software Engineering - GPA 3.11

ORGANIZATION

Bengkel UX Indonesia (June 2022 – Agustus 2022)
Effectively organized workshops as part of the Creative Division at Bengkel UX Indonesia. These workshops featured a series of UX events led by three distinct speakers, each covering various topics including UX Writing, UX Design, and UX Research.

Sofware Engineering Quality Leadership (SQL) 2021 (Augst 2021 – Oct 2021)
Managed to effectively lead SQL 2021 Cadreization participants in executing SQL 2021 regeneration events and facilitated the establishment of communication among the regeneration participants.

Islamic Motivation and Leadership Al-Fath (ISLAH) 2020 (May 2020 – Nov 2022)
Effectively guided the participants of the Al-Fath 2020 Islamic Motivation and Leadership program in successfully executing the event and promoting communication among the participants.

EXPERIENCE

Freelancer
Design Graphics (Jan 2021 - Present)
I operate as a freelance graphic designer, where I receive design requests from clients, primarily involving tasks such as creating logos and editing videos.

PT Alako Data Dinamika
UI Designer (Feb 2022 – July 2022)
I am employed as a UI designer at PT Alako Data Dinamika, a company specializing in the purchase and sale of spare parts. In this role, my responsibilities encompass designing the company's website, including the creation of the landing page and optimizing the sales process.

Football Times
Social Media Designer (Feb 2020 – July 2020)
- I design photos for the Football Times social media
- I design videos for the Football Times social media

PROJECT

UI/UX Designer CO - INTER (Feb 2021 – present)
I assumed the role of a UI/UX designer for this project and additionally contributed to project management tasks. Co-Inter (Center for Community Information) is an application-based information service center that can be accessed anytime and anywhere via electronic devices such as smartphones. In this application, users can view up-to-date information, schedule of activities in the RT/RW environment, MSMEs owned by residents, community forums for RT/RW or between residents, and a recap of RT/RW cash book keeping.
