SUMMARY

I am a highly motivated and experienced UI/UX designer with 1.5 years of experience in communicating ideas through storyboards, process flows, user journeys, and sitemaps. I have a proven track record of designing user-centered solutions by utilizing research and understanding business needs. I possess expertise in developing UI designs and prototypes, optimizing designs based on user feedback, and iterating rapidly. I am passionate about creating intuitive digital experiences and always eager to take on new challenges in this ever-evolving industry.
